SEE *the* EUROTECH RAPIDO at EASTEC & PMTS SHOWS

Eurotech's Rapido is a lightning fast dual Y Turn/Mill Machine with 3-Tools in the Cut Simultaneously. With powerful 15 HP on both main and sub spindle it delivers 50% faster cycle times than the competition.

- 10 axis turn/mill machining center
- (2) 12 station live Turrets with 1.97" of Y-Axis Stroke
- (2) 7000 rpm C-Axis Spindles
- Programmable Super Shift Sub-spindle
- Programmable Parts Catcher and Parts Conveyor System
- Rigid fixed headstock design
- 1.42" bar capacity
- Great Ergonomics
- Compact footprint: 149" x 55"

www.eurotechelite.com/rapido)

Super Impose Clearshift Sub-Spindle

No Faster Machine in the World!

"Once we compared, it was clear from how Eurotech designed, built and packaged the machine with all the hardware and software, they were the most serious about through-put and had a much faster cycle time."

–Dave Fricke, Owner, Lehigh Defense

"With Eurotech we went from 35 minutes on 14 machines to 6 minutes, 1 machine."
– Marcelo Eiti Okada, Process Development Mgr at TAURUS

Since investing in a Eurotech we have witnessed a time savings of over 15% in our shop! We can't say enough about the flexibility and speed of the Eurotech, not to mention that we were able to eliminate operations handling and inspections."

*–Michael Digangi, Shop Manager,
Pitney Bowes*
